

ME72 Engineering Design Laboratory
Fall & Winter Terms, 2006-07

Penalty-free extensions for homework assignments must be arranged in advance with the Instructor. In the absence of a pre-arranged extension, the maximum possible fraction (M) of the credit available for an assignment will be reduced according to the following formula:

$$M = (1 - .365)e^{(-.365D)} + .365$$

where D is the number of School Days the homework is late.
